Dear Parents and Carers,

UPDATE - Coronavirus

I want to share the school's current position concerning Coronavirus. We receive a daily update from the Department for Education that shares any new information and advice. The local authority also sends us regular updates. We use this information to inform our actions or steps which may need to be taken.

At school, we have encouraged children to wash their hands regularly with soap and water for 20 seconds. We have increased the opportunities for this to happen in school. Please also ensure your child washes their hands before leaving home and when returning home from school.

Although children should be doing so already, please make sure that children bring their water bottles home at the end of each day to be washed thoroughly before being returned to school the following day.

In light of the current situation, we have made the decision to cancel all external visits next week. This will include the Year 1 visit to The Museum of Lincolnshire Life and the Year 5 visit to Gainsborough Old Hall. I know that the children will be disappointed, but I hope that you understand that we have made this decision in their best interests.

I will keep you updated if anything significant changes and we will continue to make all decisions with the very best interests of your children, families and our staff in mind. Thank you for your continued support.

Yours faithfully,

Antonia Brooks
Headteacher
