

Year 4 Home Learning Tasks

Term 1 and 2

Below are tasks to choose from to complete at home over Term 1 and 2.

You can complete them in any order and choose to do as many as you wish.

We would love to see your home learning throughout the term to share with the rest of the class.

True or False?

Create a **true or false quiz** about any of the following topics we're studying:

- Islam
- The Amazon Rainforest
- Food chains
- Digestive system and teeth
- The Romans
- Online safety

You could create this on paper or create a digital presentation. Send this to enquiries and we can show this in class.

Teeth!

Draw or create a model of a set of human teeth and if possible, label the different teeth, whether they are molars, canines and incisors. Don't let them bite you!

Amazon in a Box!

Make the Amazon rainforest in a box! Find a box and try and add the four layers of a rainforest and animals you might find. Choose your resources wisely, you could get creative and use recycled items from your house. Once you have created your rainforest box, take a picture/tweet it or bring it in so we can show everyone at school!

Get Ready for Battle!

We've been learning all about Romans and their invasions. Now, it's down to you. Create your own Roman shield to prepare yourself. You might even make a helmet! Whatever you create, don't forget to bring it in to show it off.

Respect and Happiness

This term our whole school values are Respect and Happiness. What does this mean to you when visiting a forest? Do people only leave their footprints when visiting a forest? **Make a poster** to remind people how to take care of our world's forests and keep them happy!

You Choose!

We've been learning lots of things across the Autumn term, choose something that has inspired and interested you. Create a piece of home learning in whichever way you would like. You could create a piece of writing, make a model or create a drawing... the possibilities are endless.
