

Year 4 Home Learning Tasks

Blue Abyss

Below are tasks to choose from to complete at home over this term in your scrapbook.

You can complete them in any order and choose to do as many as you wish.

We would love to see your scrapbook throughout the term to share with the rest of the class.

Knowledge is Key!

Date:

Create a **fact-file** about the layers of the ocean:

- Sunlight zone
- Twilight zone
- Midnight zone
- Abyss
- Trenches

Make sure you try your best to stay neat and find out lots of facts! Bring an extra copy of your work to school so we can create a class book full of our fact-files!

Ocean View

Date:

Draw the view of the ocean you might see if looking through the window of a submarine.

Time to Create!

Date:

Use lots of resources and try and **create** a 3D underwater scene. What colours can you use? What animals will you include? Spend your time being creative to ensure it will look fantastic.

Who Will Win?

Date:

Create a **presentation** on a chosen sea creature. How many amazing facts can you find? Can you include some pictures too? Try and pick a creature that's unusual you don't know lots about. This can be sent on Teams or to enquiries so we can show it in class.

True or False?

Date:

It's said we've only explored 5% of the ocean. Create a **true or false quiz** so we can learn lots of interesting facts about the ocean. Try and pick things we haven't spoken about in class so we can all learn lots of new facts! Design an 'under the sea' board game.

Let's play a game!

Date:

Design an 'under the sea' **board game**. What creatures might your counters represent?
