Year 4 Home Learning Tasks

Autumn Term – Under the Canopy

Below are some tasks to choose from to complete at home over the Autumn term in your scrapbook. You can complete them in any order and choose to do as many as you wish.

We would love to see your scrapbook throughout the term to share with the rest of the class.

True or False?	Create a true or false quiz to test everyone's knowledge on anything about rainforests. Get busy with your research and be prepared to amaze us with your facts! Once you have finished, please bring your quiz into school and we will have a go!
Layers of the Rainforest	Research the four different layers of the rainforest. Create a poster or diagram with labels and pictures showing each layer. Can you add which animals and plants are in each layer?
Amazon in a Box!	Make the Amazon rainforest in a box! Find a box and try and add the four layers of a rainforest and animals you might find. Choose your resources wisely, you could get creative and use recycled items from your house. Once you have created your rainforest box, take a picture/tweet it or bring it in so we can show everyone at school!
Where are Rainforests?	Create a global map showing the location of different rainforests. Make sure to add labels of their names and any key facts. You could even add labelled photos of different rainforests with a brief description.
Animal Adaptations	Research one rainforest animal. Annotate a photo or illustration to describe and explain how its adaptations help it survive in the rainforest. Once you've done this, can you design your own rainforest animal? Sketch it carefully and make sure to explain any adaptations it needs to survive in a rainforest.
Respect	This term our whole school value is Respect. What does this mean to you when visiting a forest? Do people only leave their footprints when visiting a forest? Make a poster to remind people how to take care of our world's forests.
Exotic Animals	It's time to get artistic! Create a picture or a collage of exotic birds or animals that live in the Amazon rainforest.
